The Director,  
University of Colombo School of Computing,  
UCSC Building Complex,  
Colombo 7.

Dear Sir/Madam,

**Invitation to participate in 'Technosoft 2015' software competition**

The program HNDIT (Higher National Diploma in Information Technology) of Advanced Technological Institutes (ATIs) in SLIATE organizes a software competition under the name 'Technosoft' in each year to open new avenues for the students with hidden skills in the IT field. This year, the Department of IT of ATI Kurunegala is hosting the competition 'Technosoft 2015' which has been scheduled to be held on 5<sup>th</sup> and 6<sup>th</sup> of November 2015.

Through this competition, we aim to gather the students in ATIs, universities and schools from all over the country to compete on grounds of excellence and to bring out the potential talents of our youth.

Hence, we would like to cordially invite the students of your prestigious university to participate in 'Technosoft 2015' software competition. You are requested kindly to circulate this invitation in your university and encourage your students to participate in this mega event. Your participation will be an honor for us and this is an excellent opportunity for your students to compete and display their creativity and talents.

A detailed document about the competition, model application form and a poster are enclosed with this letter.

Thank you.

Yours,

Faithfully,

IT Society,  
Advanced Technological Institute - Kurunegala
